

The logo for 'evolution commerce' is located in the top right corner of the image. It features the word 'evolution' in a white, lowercase, sans-serif font, with a small square icon to its left. Below it, the word 'commerce' is written in a larger, white, lowercase, sans-serif font, also with a small square icon to its left. The background of the image is a blurred photograph of a store interior with a sign that says 'OPEN' in large, 3D block letters.

Release information

Possibility to remove express order fee after a given days (Add-on)

We have developed functionality that allows you to remove the fee on express orders after X days so that the customer doesn't have to pay an express fee if they haven't received the order quickly enough.

The function is parameter controlled so you can have different numbers of days in different sales channel. Only weekdays, i.e. Monday to Friday are included. If there are red days during Monday-Friday, they are counted as weekdays.

The functionality is an add on, which can be activated for you. Please contact us if you're interested.

Extended editing options on control orders (Included)

We have made it possible to update more fields in the display for control orders from internet. The new editing possibilities are:

- Language code
- Temporary delivery address
- Gift card information

Problem with customer orders disappearing when the temporary delivery address was removed (Included)

We have fixed an issue where some customer orders could disappear when the temporary delivery address was removed. This has now been fixed and should work normally again.
