

Harmony Release 2022-09-20

Type:	Release Window	Release date:	2022-09-20
-------	----------------	---------------	------------

Release information

Harmony Released Features

- **TMS-Consignor/nShift**
We have now added statecode for country "CA" (Canada) in the requests for "SubmitShipment".
- **Feature 23385/ECS-4024: Store replenishment**
Possibility to switch off or tune amount in the functionality for picking parcels from buffer area directly to stores.
- **Feature 23153/ ECS-2856: Print Hang-tag labels**
Possibility to print hang-tag labels (free texts) from Harmony item display (Customer specific development).

Minor adjustments & Bug fixes

- **ECS-8331 Correction of a reading error on the Property value display (Parameter)**

Typ	Egenskap	Värde	Språk	Ändrad av	Senast ändrad
	Filtreringsfärg	Indigo	FI	PULCA	2022-09-12
	Filtreringsfärg	***Missing***		PULCA	2022-09-12

We have corrected the reading error for *****Missing***** in the Value (Värde) and the empty Language (Språk) column. This line was earlier possible to delete which resulted in deletion of connected values as well. The line will no longer be displayed.

- **ECS-5074 - Validation of account and reference number for generic payment methods.**

If a merchant id or a reference number is missing the following messages will appear as a Signal.
Merchant id is missing. Please contact Harmony support.

Credit card information is missing on the order. Please contact Harmony support.

Harmony Desktop Client

- Reload of Harmony for a new version is required.
