Harmony Released Features

ECS-8033/Feature 25169:

- Due to visibility problems with certain letters and figures, Harmony will from now on remove those signs from the gift card codes generated.
Those signs are "capital i", "small L", "figure zero", "capital o".
The change will affect both e-business orders and POS.

ECS-10187/Feature 26737:

- Possibility to have the picking labels sorted by SKU instead of stock location.
This is controlled by a parameter setting per sales channel in Harmony.

ECS-10174/Feature 26531:

- Since Harmony introduced the new document solution, some time ago, unfortunately some functionalities for customer controls were lost. This has now been adjusted so those functionalities have been introduced again, with a few limitations.
If you are interested: For those limitations, please check Harmony user manual, which can be reached from Harmony client.

Feature 26138:

- Changes are made on the page for Online reports.
We have added the ability to filter by area and a new tab is added for the updating reports.
It requires a permission on user level to access the updating reports.
For more information please contact us.

Minor adjustments

ECS 10660

- In this release we have fixed a problem on the stock position image. This is when you're on a "Finish location" and you go from "Full ready for storage" to "Processing". Then you get a PopUp "Delete current stock task at the current position".
If you then push the Yes-button it happened before that you got the question again and again.
This problem is now fixed.

ECS 10881

- In this release we have fixed so it's possible to copy a stockItem that doesn't have an orderItem.
Earlier the image just got blank but now you get messages back that says what's been copied.

ECS 11026

- Space in the following field on the customer record will now updates Voyado with No (Previously it has become Yes in some systems). E-mail offer, SMS offer, Direct mail.

Harmony Desktop Client

- Reload of Harmony for a new version is required.
