Harmoney Released Features

Feature 28025 / ECS-10905 - E-Invoice: Wrong amount - credit invoice discount

We have now fixed the error regarding E-invoices sent to InExchange when a store credit invoice is created and there was a discount on the item line from the original store invoice (receipt).

Feature 27585 / ECS-11381- Accounting statistics - Search for all German data in one search

On the Coding statistics image, tab Sales journal account entries it is possible to search for transactions information based either on Sales channel or on Company. It is also possible to search on Sales channel "All" and Eco. Company "All".

Feature 28270 - Status change with "Destinate"

When pressing the "Destinate" button on Order surveillance image (tab Parcel in management), the status at the Purchase order, tab Order head will be set to 40-Started if the status is less than 40. Order rows will be also updated to the correct status.

Minor adjustments

ECS 11203 - New format Pain 001 for Latvia and Estonia payments to customers

A correction is made in the payout file so that EndToEndId is always unique.

ECS 11203 - Development regarding AX-file for Poland

Development is done in AX-file so that transactions are sent to new company.

ECS 12646 - Changes in the function that sends changed customers to Voyado and Agillic

Changes is made to handle the case when the update is done at the same moment as the function is sending information about changed customers to external systems (Agillic, Voyado).

Concurrency has in some cases caused that the changes has not been sent to external system.
